What can you do on a rainy day?

by Peter Weatherall

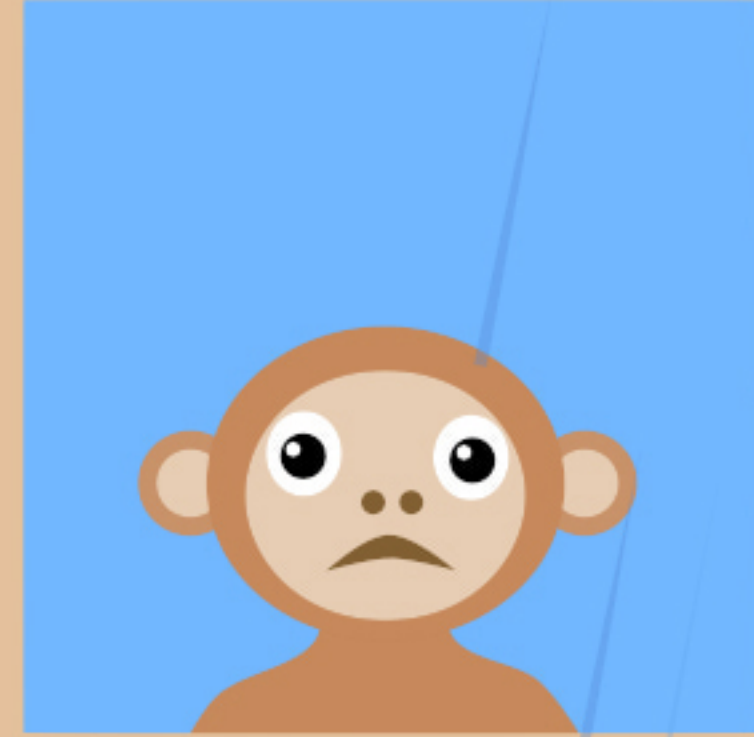

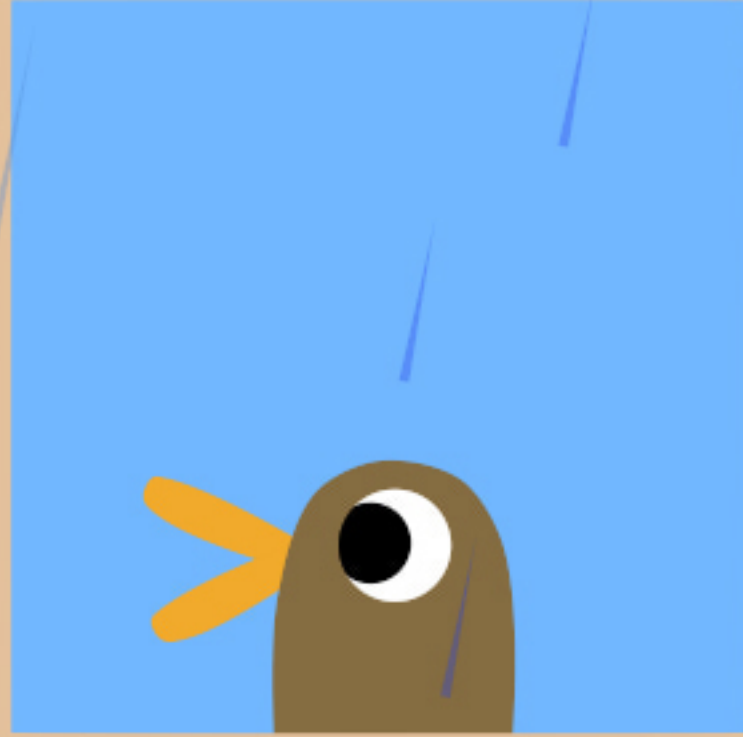

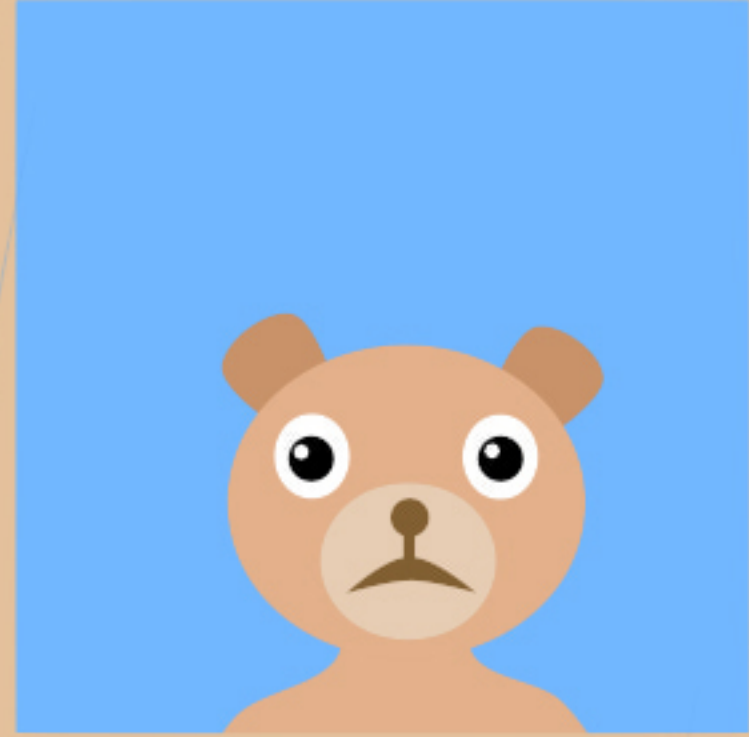

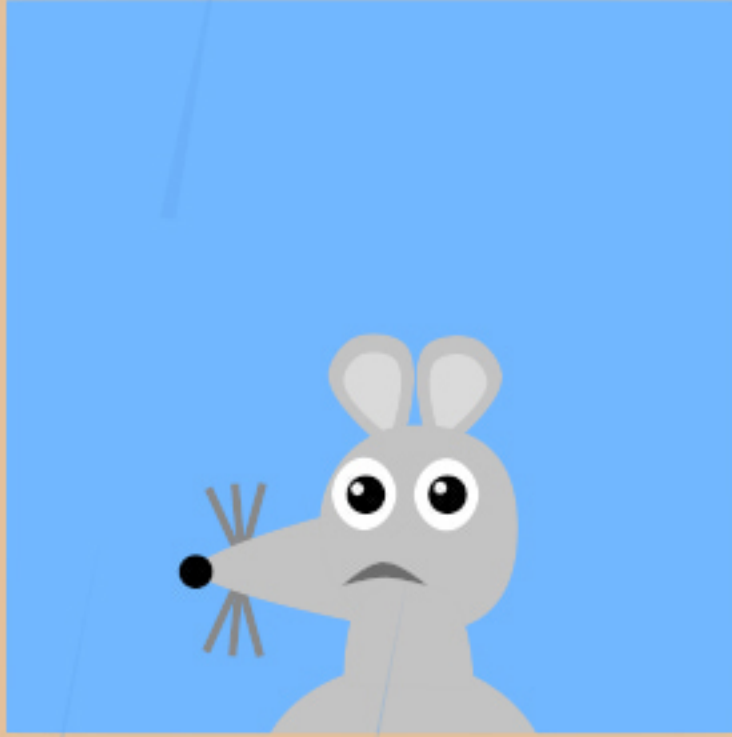

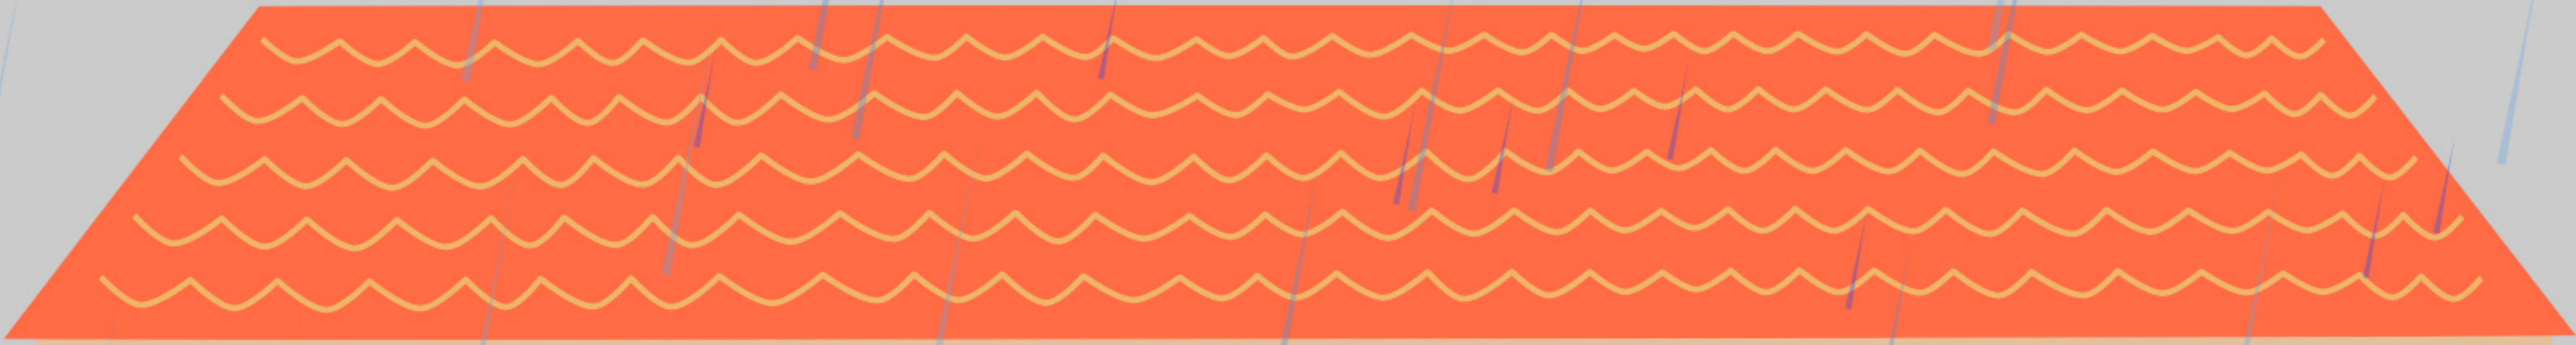

What can you do on a rainy day when it's wet and you want to play?

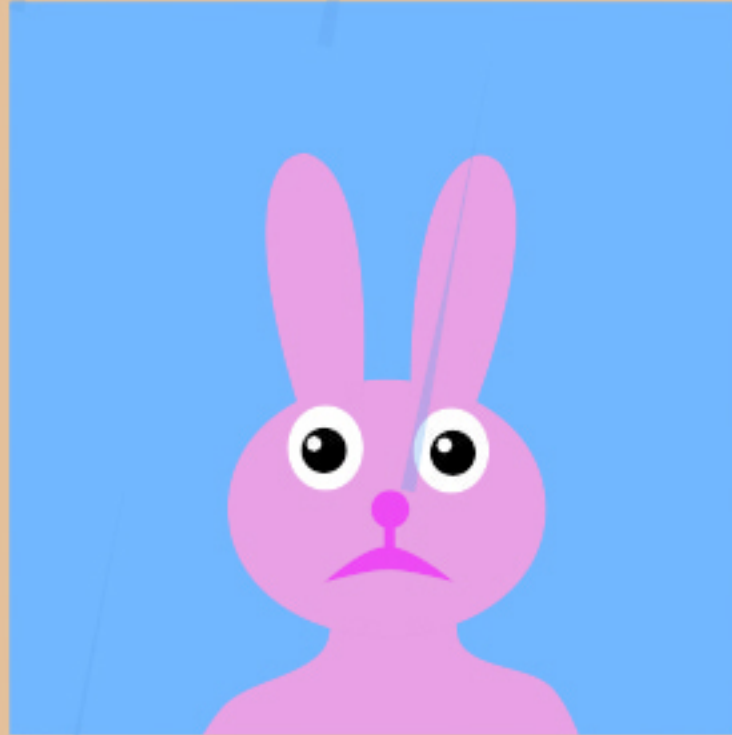

You can splash in a puddle.

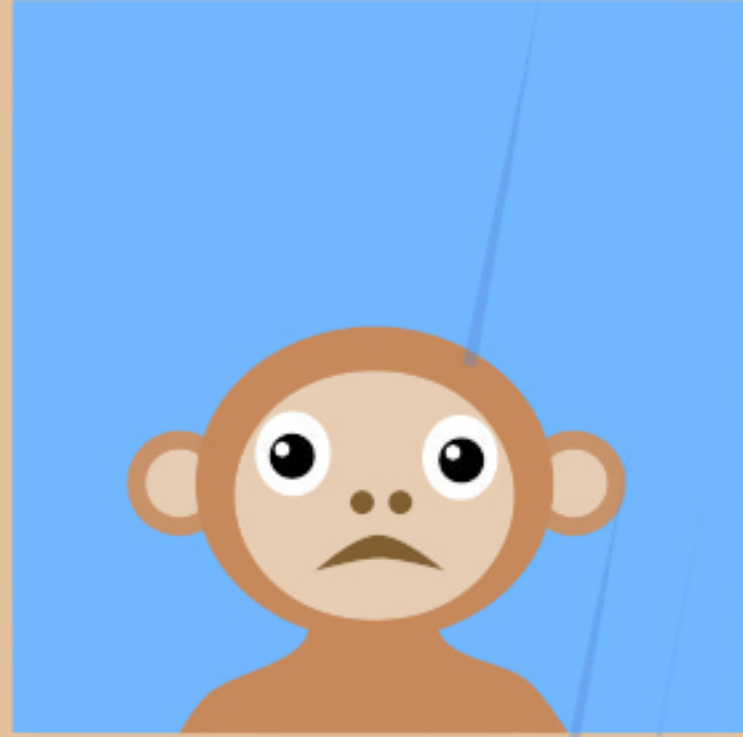

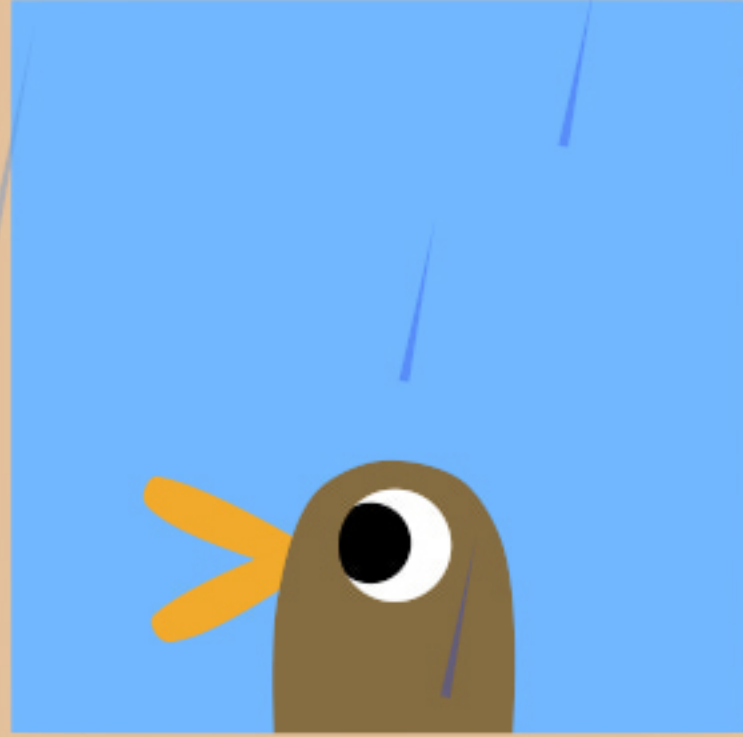

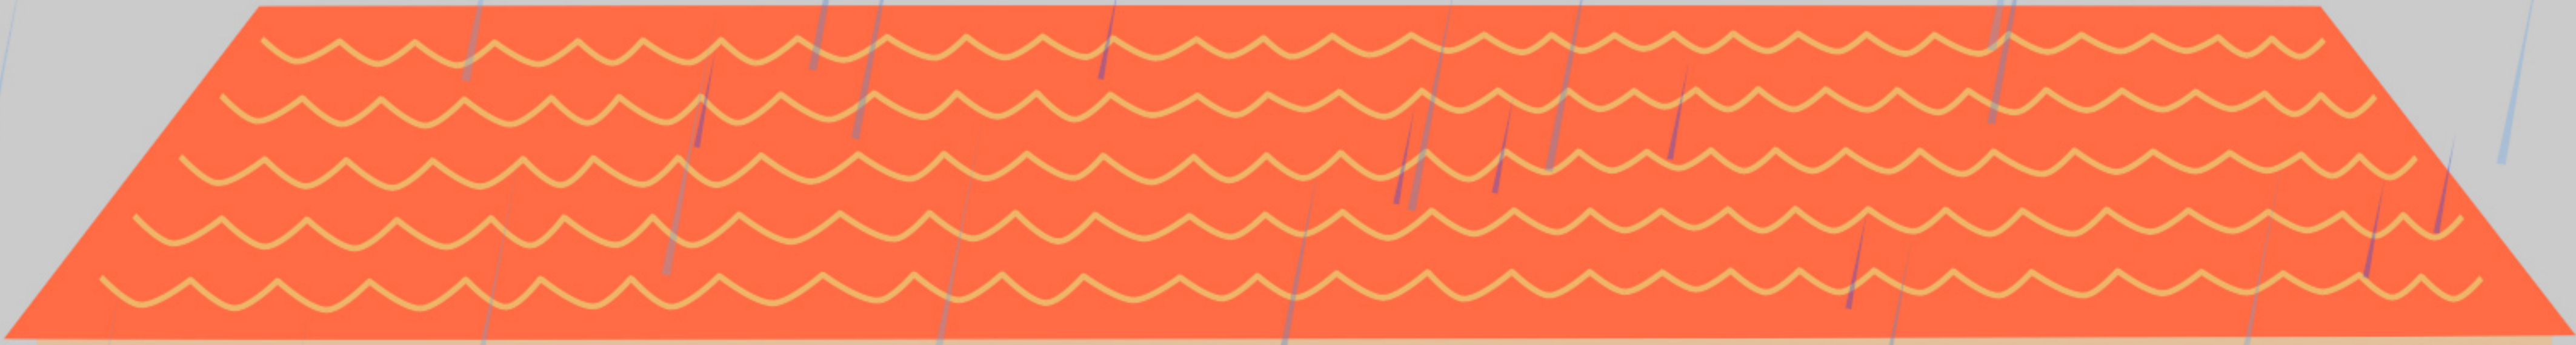

What can you do on a rainy day when it's wet and you want to play?

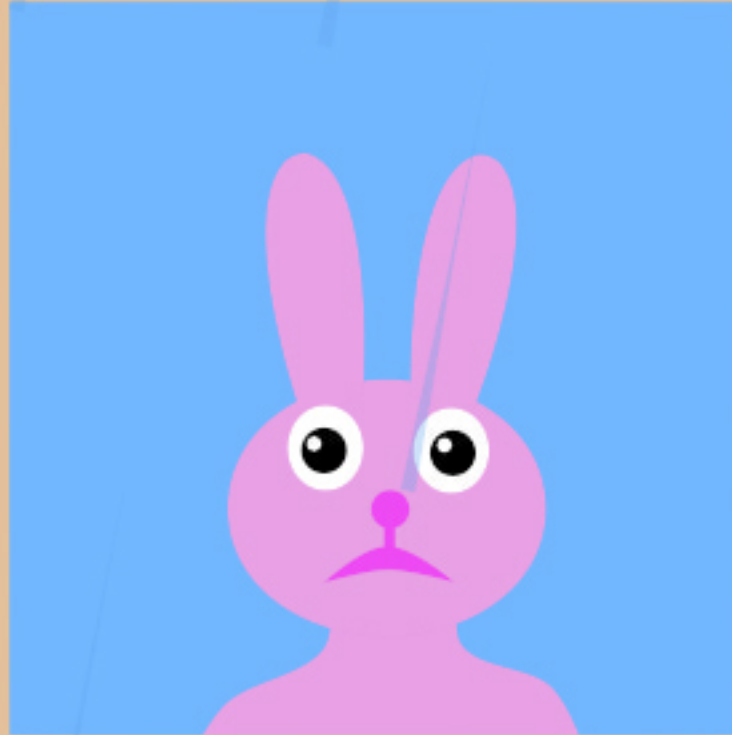

You can catch raindrops
on your tongue.

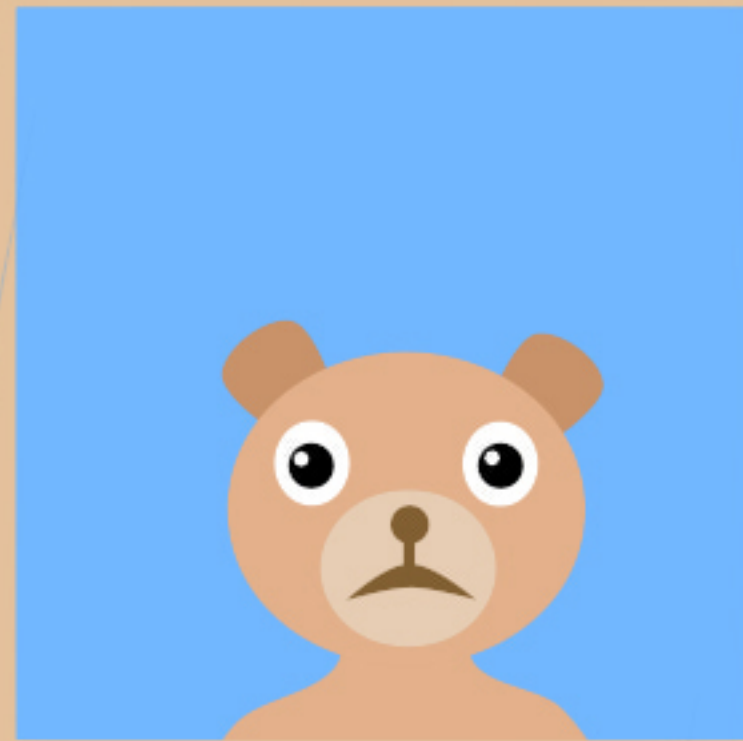

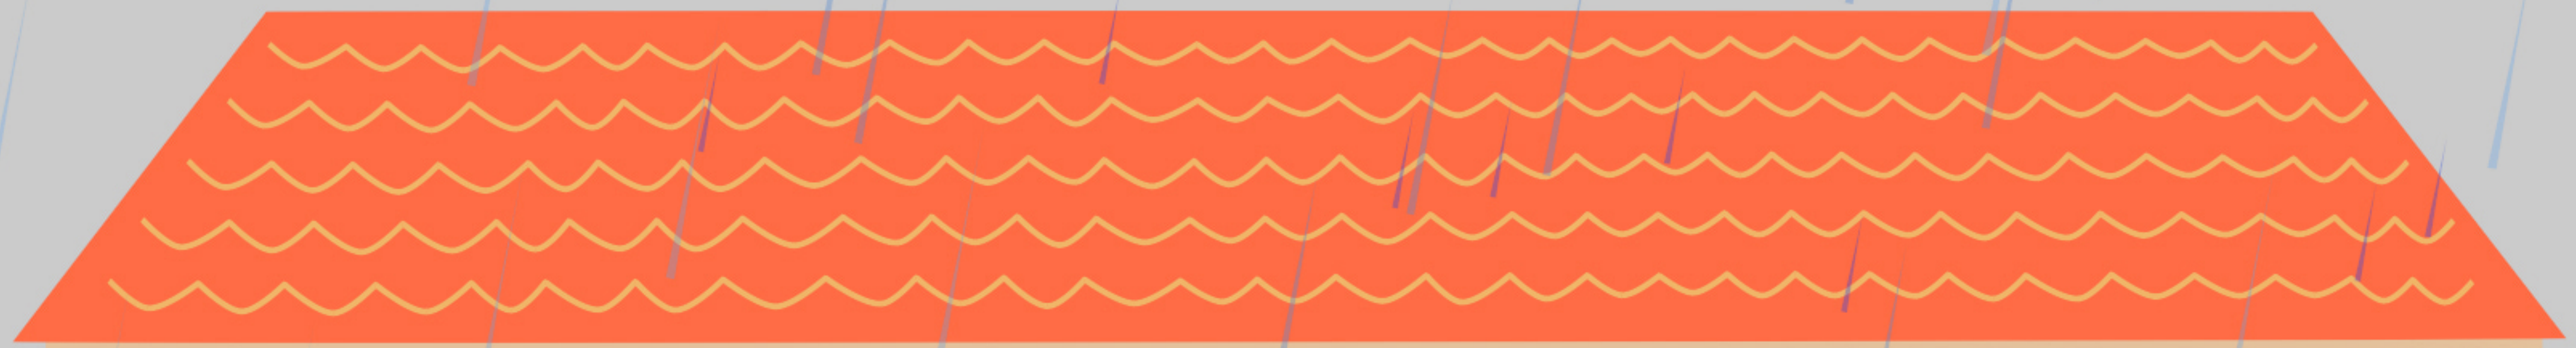

What can you do on a rainy day when it's wet and you want to play?

You can float a leaf in the water.

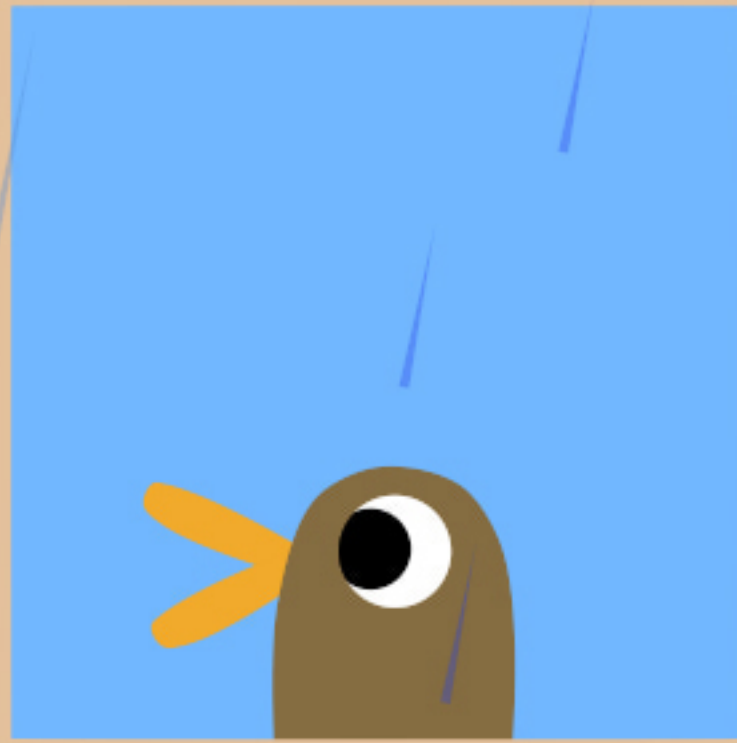

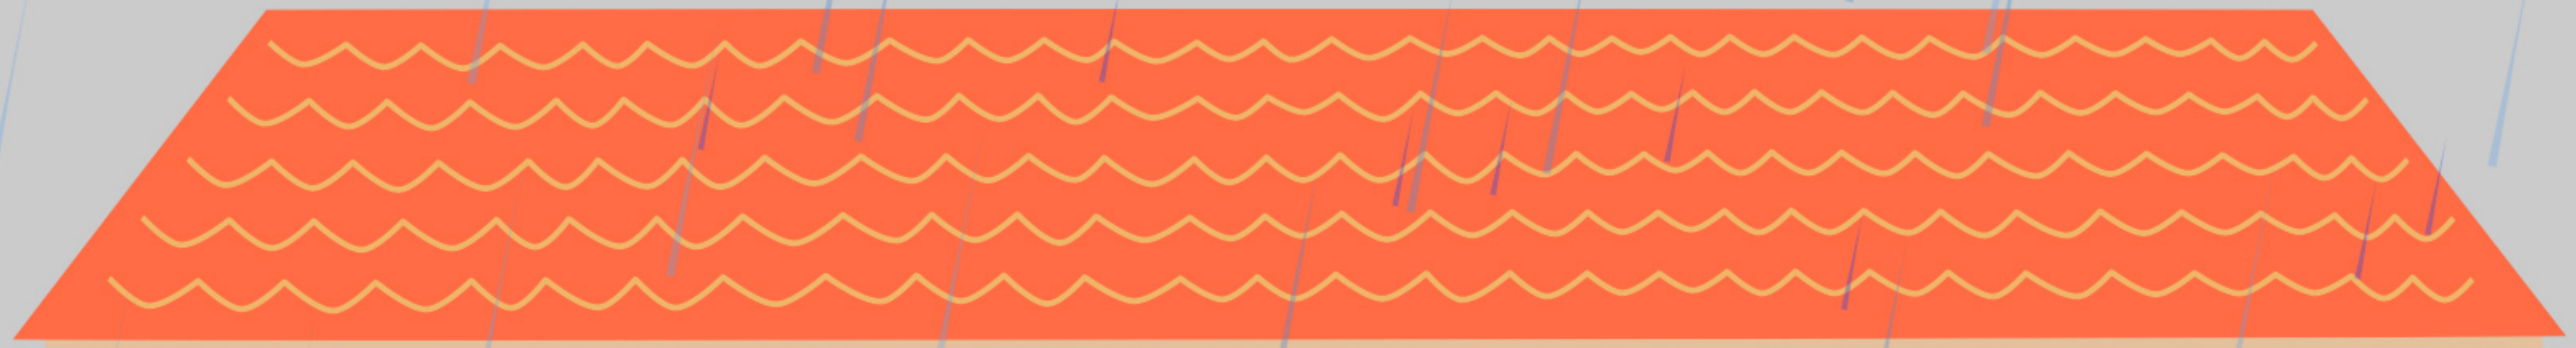

What can you do on a rainy day when it's wet and you want to play?

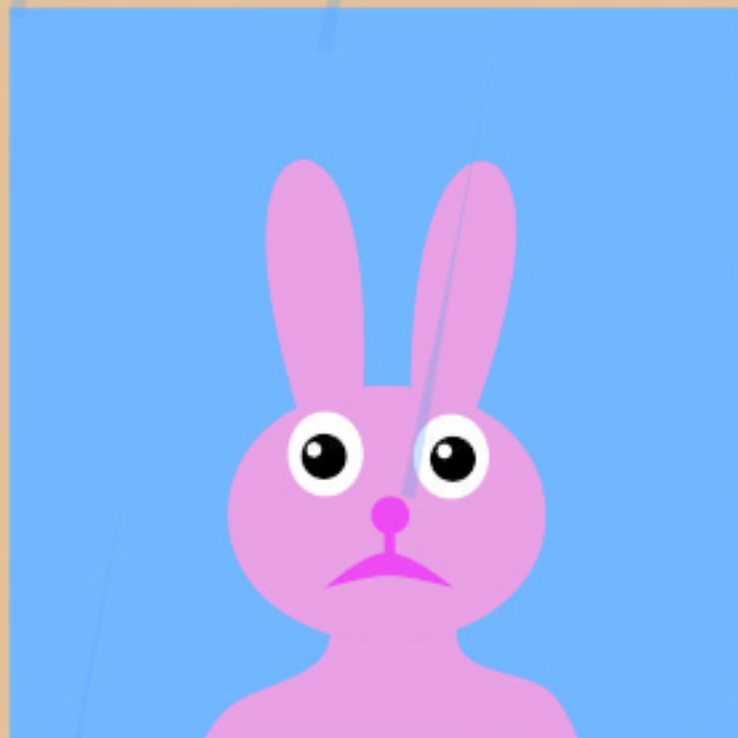

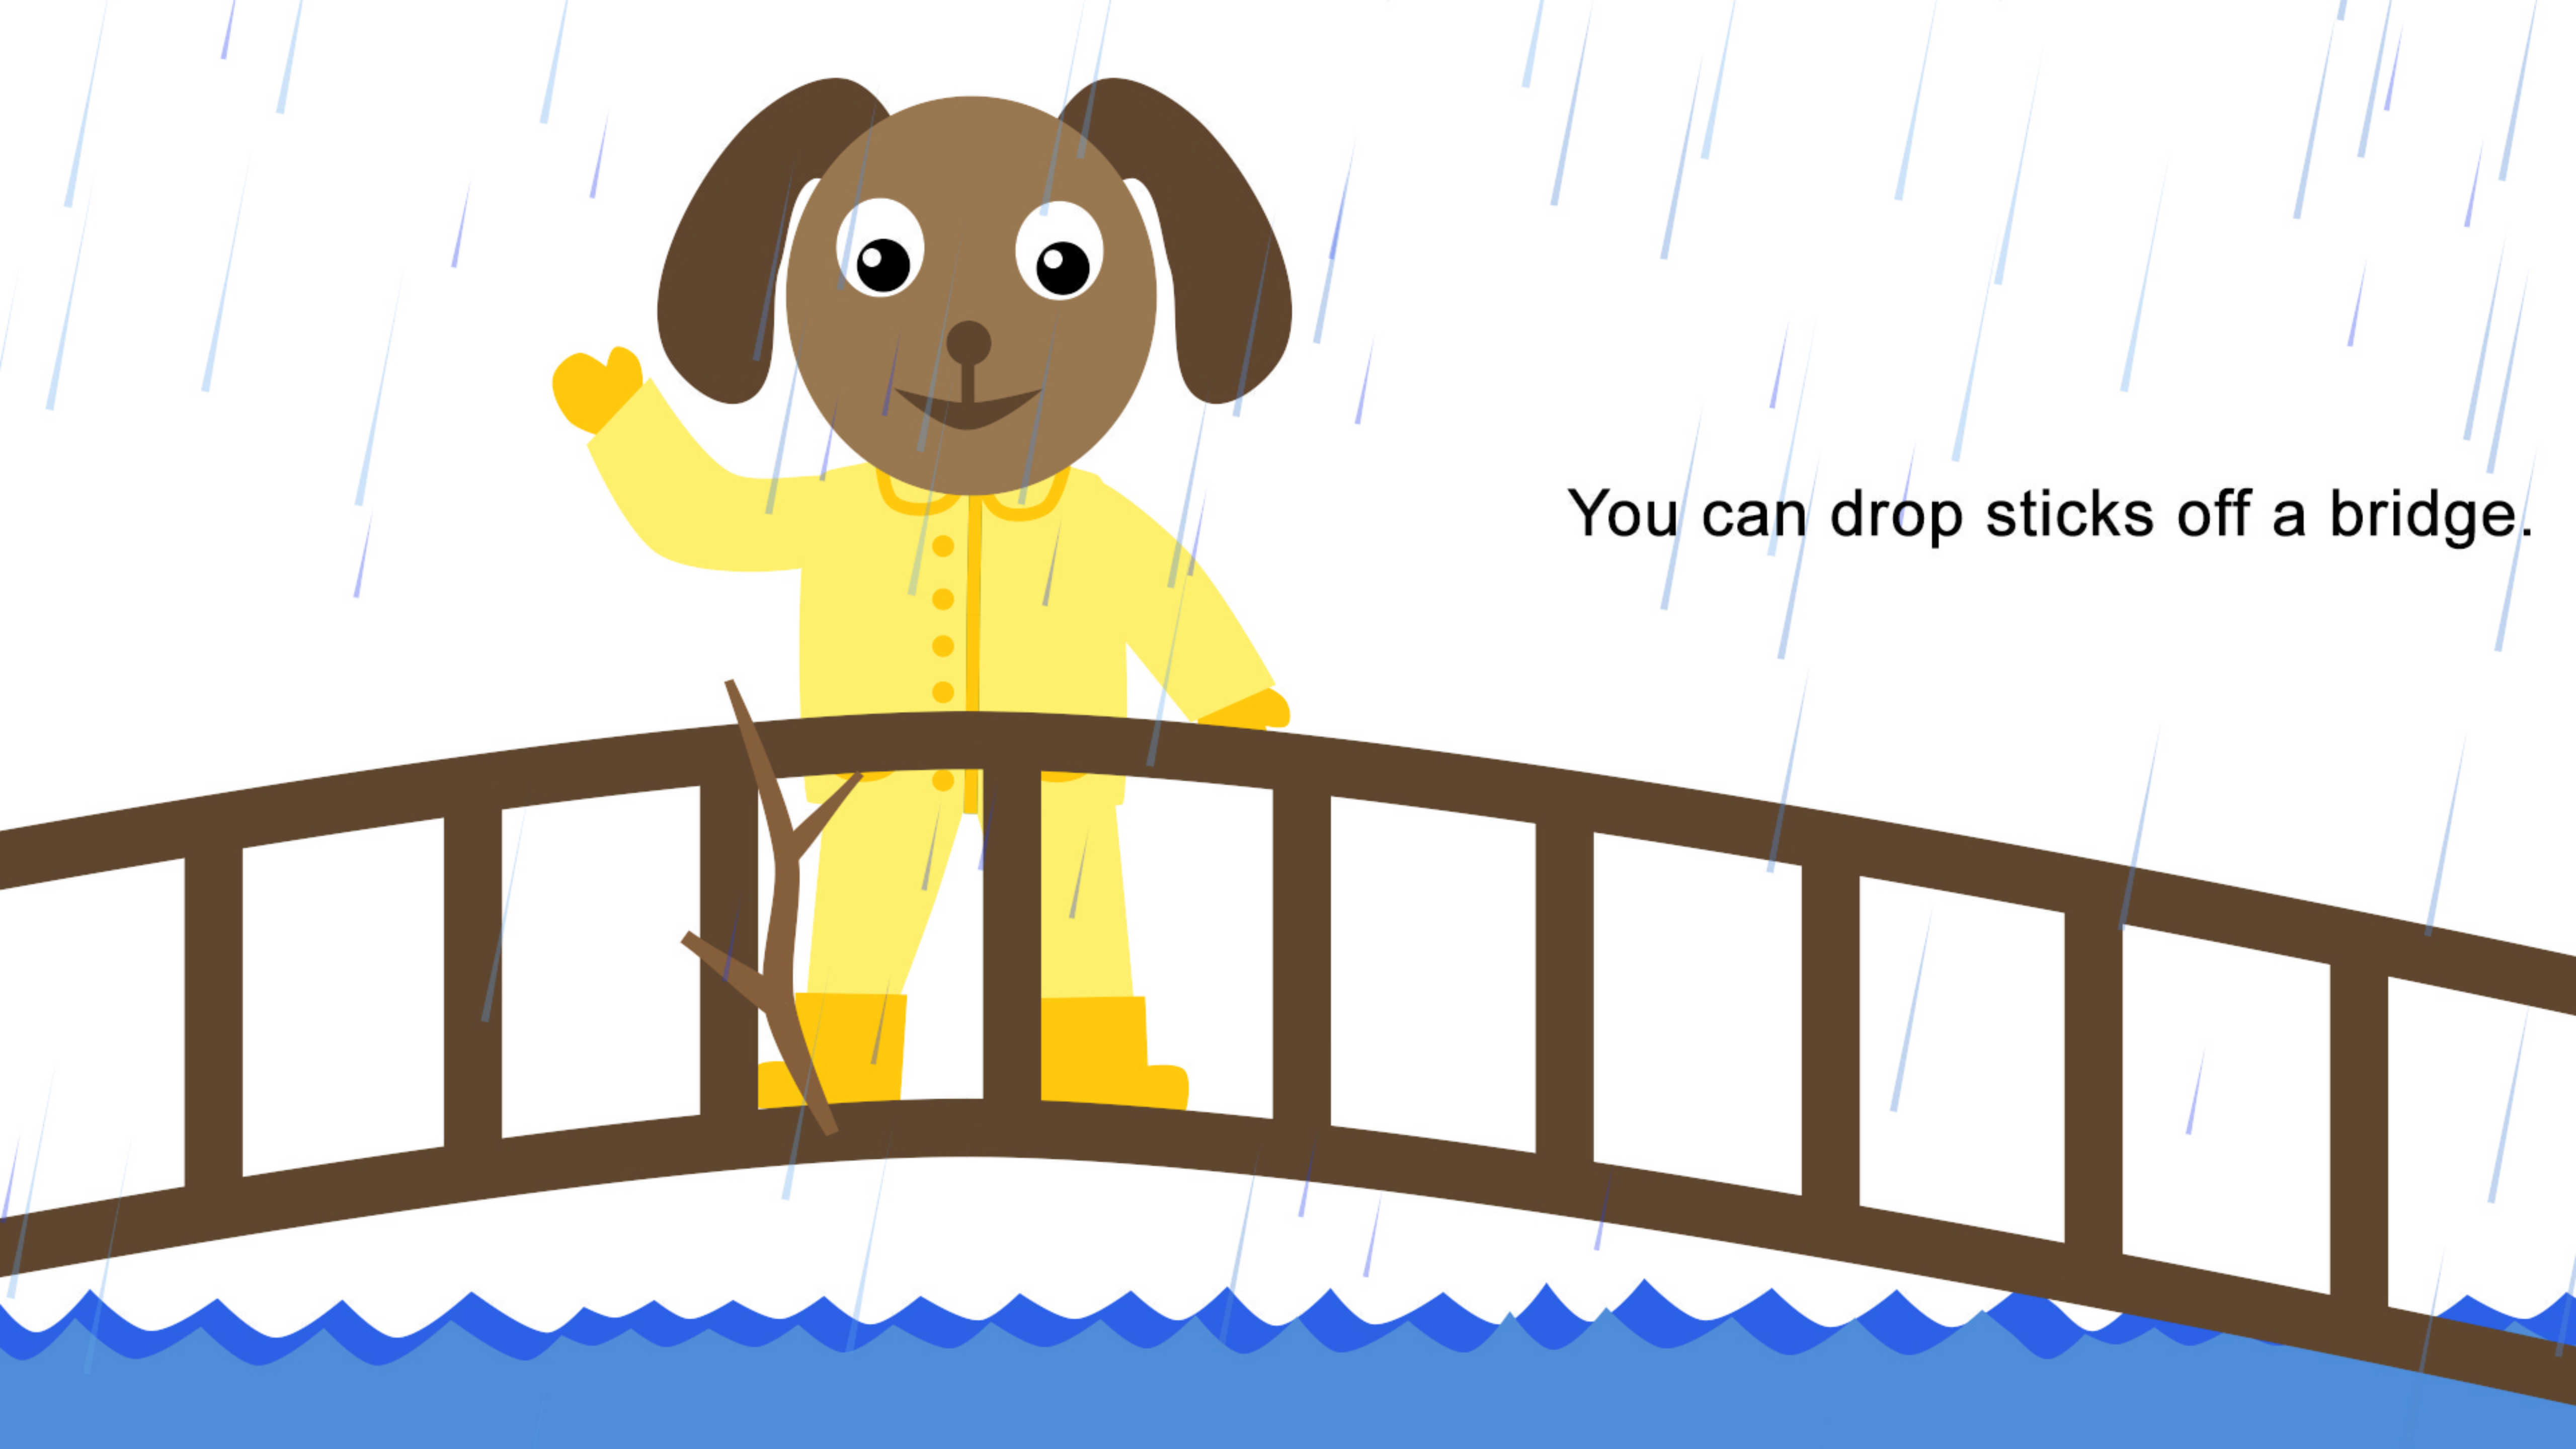

You can make a mud pie.

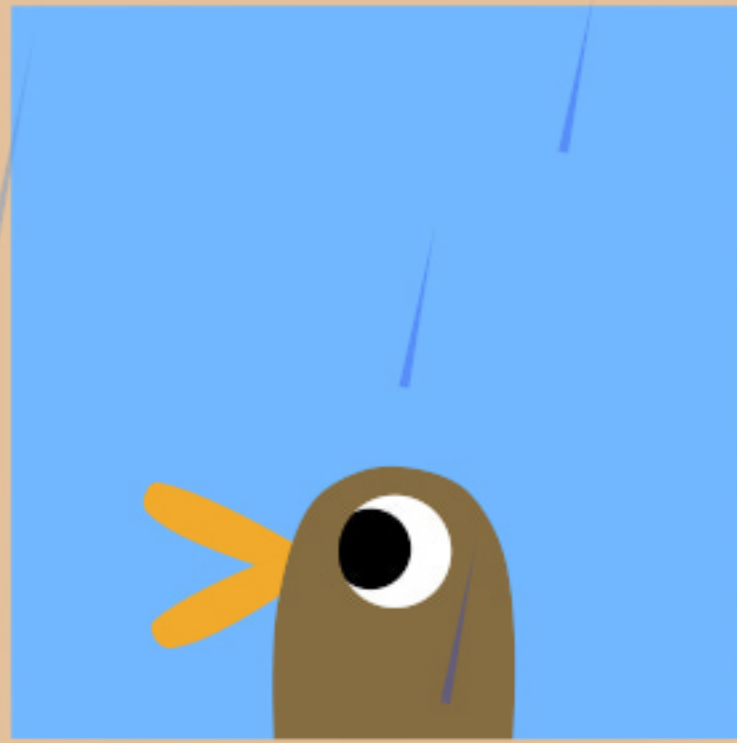

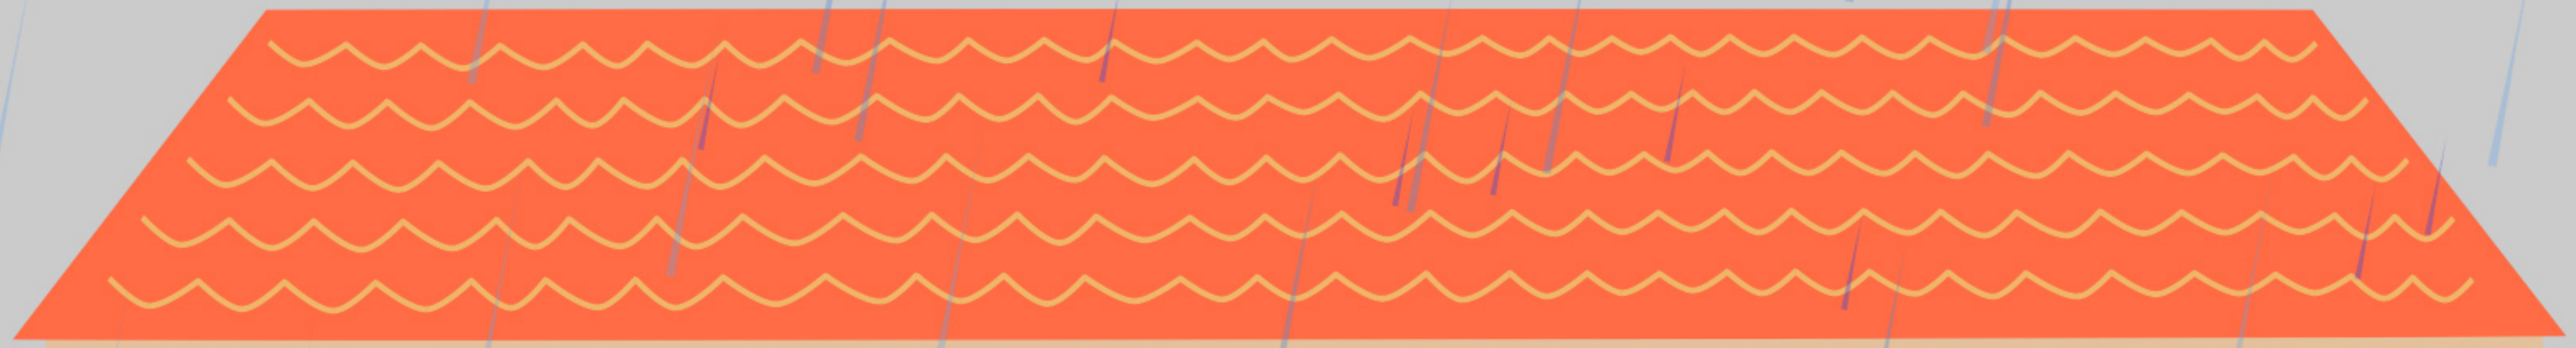

What can you do on a rainy day when it's wet and you want to play?

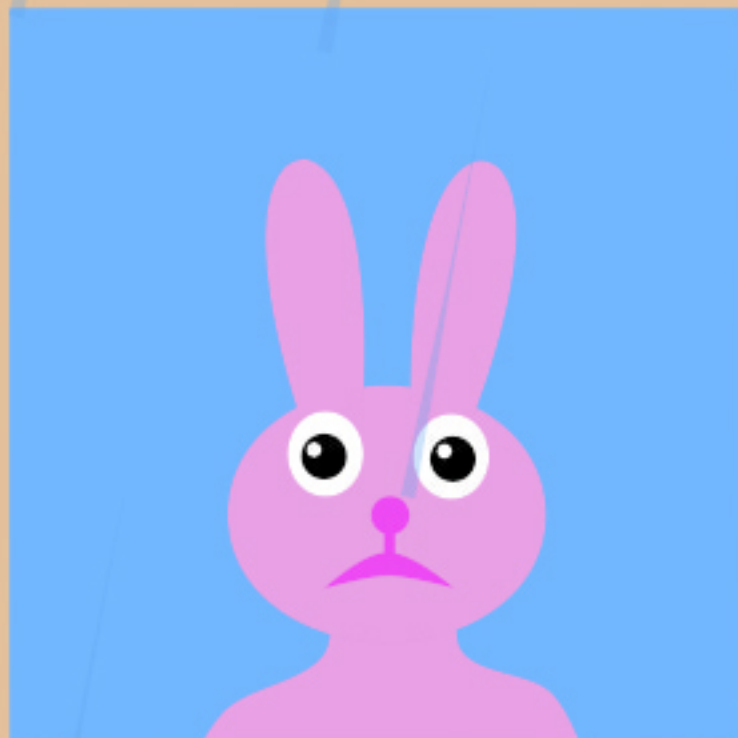

You can drop sticks off a bridge.

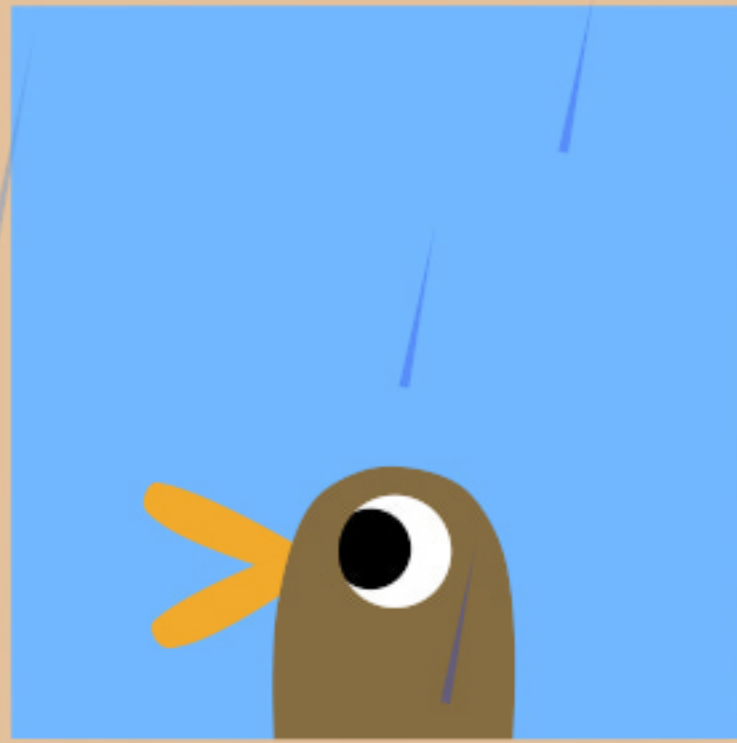

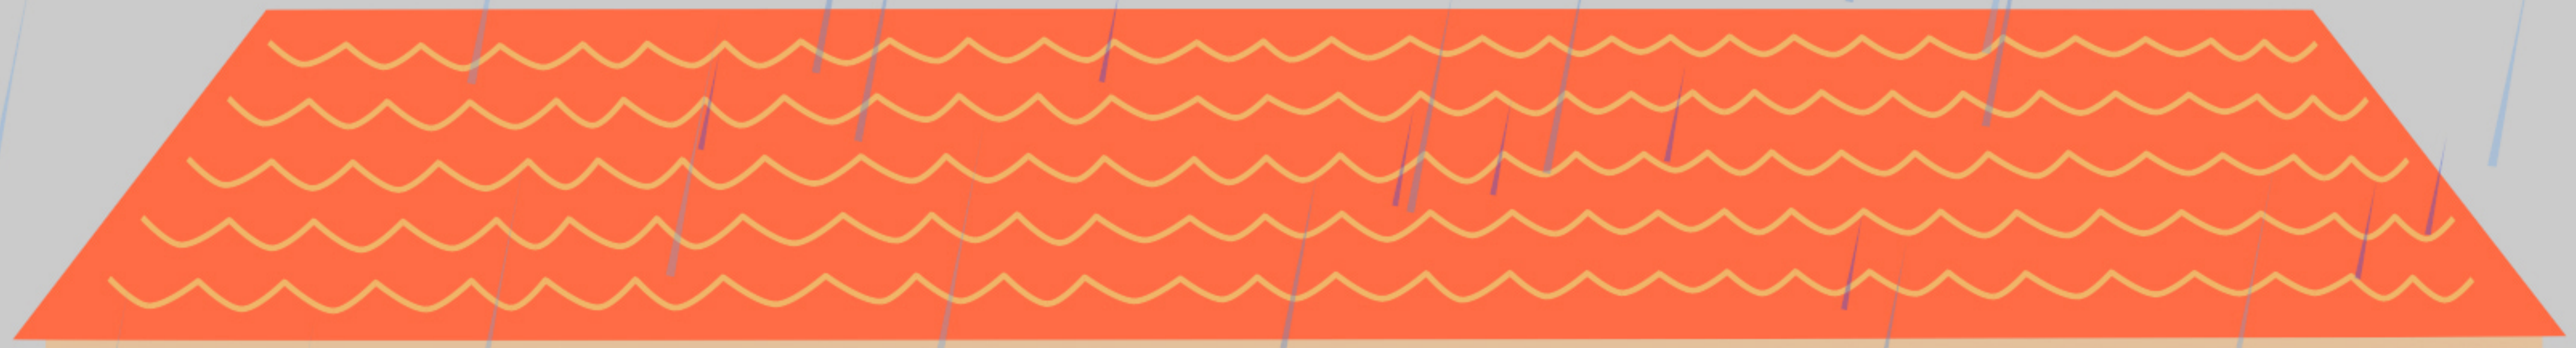

What can you do on a rainy day when it's wet and you want to play?

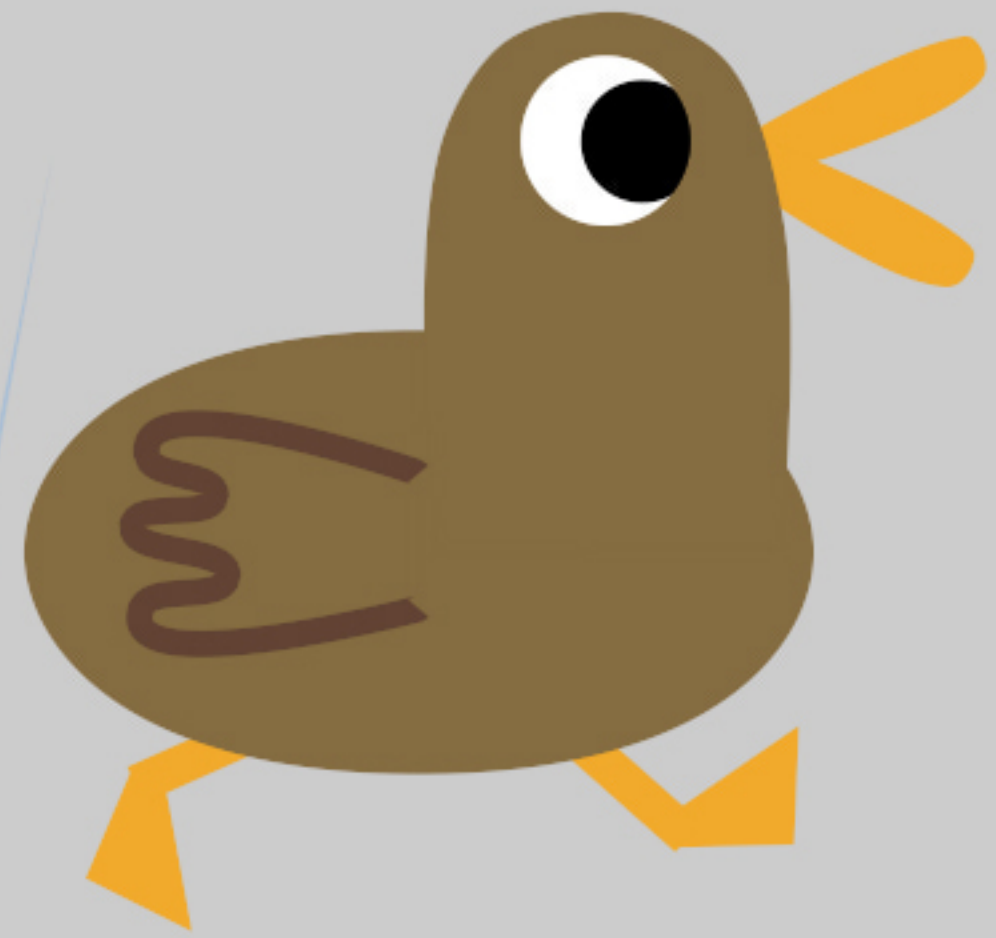

You can chase a rainbow.

What can you do on a rainy day when it's wet and you want to play?

You don't have to stay inside
if you have waterproof feathers.

Or an umbrella. Quack!
